

SWL Primary Care Joint Committee

Proposed workstreams to support the Joint Committee

The proposed structure for the Primary Care Joint Committee including the operational subgroups which will support the JC

The groups will function to support the majority of the primary care commissioning work, each subgroup reporting into the JC where decision-making over the relevant functions will take place.

Description on a function-by-function basis will be covered in the MOU (SLA) which is the agreement between NHSE and CCGs in SWL.
