Summary of purpose and scope of report
<p>NHSE London region are requesting to meet with all London SPG areas in November to discuss their progress with primary care transformation and to understand better how 'signed up' local CCGs are to their healthcare economy's primary care strategy. NHSE also want to get an update on commissioner and provider readiness to support transformation as well as financial readiness.</p> <p>As part of the process, NHSE have provided a template format for each SPG to complete and submit in advance of their meeting. The template is very specific and detailed in areas and asks for information such as the following, this is currently being drafted:</p> <ul style="list-style-type: none"> • Primary care strategy and development • Engagement • Primary care specifications • Implementation <p>There is also an Executive Summary section to the template which gives an overview of progress across SWL; it is this detail which will be tabled at the Joint Committee meeting on the 12/11/15.</p>
