

## How is London's healthcare system meeting public expectations of data use?

**Date:** Wednesday 12 May 2021

**Time:** 12.45pm - 2.00pm

[Register here to confirm your place](#)

It has been a year since the OneLondon Citizens' Summit, where 100 participants - reflective of London's diverse population - came together to discuss, deliberate, and make recommendations for how health and care data should be joined-up and used.

### We would like to invite you to join us at this virtual briefing event to mark the Citizens' Summit: one year on.

- Learn what we're doing to fulfil Londoners' expectations for using health and care data for multiple purposes, including individual care, planning, and research
- Hear stories and case studies as to how the join-up of data is contributing to the wider vision of transforming London's health and care services
- Find out what difference this is making on the ground - for frontline staff, health and care professionals, and patient outcomes and experience

### Agenda

- |        |  |
|--------|--|
| 1.00pm | Welcome, introduction and overview                               |
| 1.10pm | Part I. Using data to support faster, safer, more effective care |

- |        |  |
|--------|--|
| 1.30pm | Part II. Using data to plan and improve services and benefit the health of Londoners |
| 1.45pm | Part III. Future proofing: what's next?  |
| 2.00pm | Close  |

### A Zoom link will be sent to registered attendees ahead of Wednesday 12 May.

This event will be chaired by Dr Sanjay Gautama, Consultant Anaesthetist, Chief Clinical Information Officer and Caldicott Guardian at Imperial College Healthcare NHS Trust.

Sanjay will be joined by a panel of transformation leads and health and care professionals working across Primary, Acute, Community, and Urgent and Emergency Care.

[Register here to confirm your place. Joining details will be sent to you ahead of the event.](#)

This virtual briefing event is relevant for health and care professionals working at providers across London who are regularly accessing and using patient data to support individual and proactive care.

It will also be of interest to those working within data, digital and transformation across the health and care system at provider, CCG, STP and regional levels, including CIOs, CCIOs, Caldicott Guardians, IG leads, and transformation leads.

Please forward this invitation to colleagues who may be interested in attending this virtual briefing event.
